

FERROTALE
Band Profile and Technical Rider

Appearance

"The Band FERROTALE comes from Berlin/Germany and really enjoys playing hard stuff. They present their music in an enthusiastic and irresistible manner thereby inspiring every true rock and metal fan." (Berlin Metal Scene)

Music Style

Critics could extensively argue about the stylistic direction of FERROTALE's music: Is it Rock or is it Metal? Is it Progressive or Straight? Is it True or New??? Nothing to worry about concerning the fans! To put it in a nutshell: FERROTALE's music is highly emotional and melodic, at the same time coming up with a high portion of power and groove.

History

The combo was established by the founding members and guitar players Max Chamber and Alex Paschenzew in 1997. The young project has changed several names (from Arrival to finally FERROTALE). Other musicians who joined the band in the first years of existence were Moritz Icken (drums) and Ludwig Ringler later followed by Dominik Wachsmann (base guitar). After several years of creative work with several concerts and two studio albums

recorded ("Chucked out of Paradise" (2000) and "Time - Engine of the Fall" (2002)) FERROTALE's creative development has begun to slow down. Most of the band members have started their university education accompanied by studying abroad and professional overseas internships. These new circumstances encumbered further development as common rehearsals became rare and less time could be invested in organising concerts. This period of disorientation lasted for several years and has finally resulted in the break-up of the formation which has existed for many years. The last project of the "old" Ferrotale was the recording of the LP "We are Enemies" (what should not be understood as a sign of discord within the band). To cut the long story short: Ferrotale arose like a phoenix from the ashes when new musicians, Artem Zaharov (base), and Stefan Wolf (drums) joined the band in 2007.

Since then the flag symbolizing a resolute comeback is hoisted! FERROTALE is back on stage organising gigs, composing new songs and successfully participating in band contests (Emergenza, Berlin Bands United). During the years 2009 and 2011 FERROTALE gave a series of concerts in several major Russian cities incl. Moskau, St. Petersburg, Samara, Ufa a. o. 2011 the by now last album "Recycled the Dead" has been recorded and introduced to the public. A concert in Czech Republic's capital city Prague together with some other Bands from Berlin was one of the highlights of the year 2012. Currently several new songs are waiting to be recorded and upcoming concerts in Russia are to be scheduled for the June 2013.
